

FUELED PROGRAMS & SERVICES

FUEL YOUR SCHOOL WITH THE POWER OF RELATIONSHIPS

FuelEd empowers schools and districts to reduce teacher turnover, improve student engagement, and transform school culture through research-backed professional learning that strengthens relationships among educators and students, enabling teaching, learning, and leading to thrive.

Our recommended pathway for services ensure districts and schools set a strong foundation for growth with key knowledge, skills, and self-awareness to build secure, strong relationships that drive learning, followed by continued development to achieve individual and collective outcomes.

WHOLE EDUCATOR WORKSHOPS

A series of experiential workshops designed to set the foundation for school climate transformation by equipping educators with practical skills in stress management, effective communication, and self-awareness.

COMMUNITIES OF PRACTICE

Continued professional learning sessions tailored to specific district or school needs and structured to build on foundational learning workshops.

RESILIENCE CIRCLES

A consistent space for small groups to process experiences and support emotional well-being, providing a safe environment for sharing, listening, connection, and self-regulation.

GROWING EMPATHY TRAIN THE TRAINER

A capacity building model that empowers select educators on-site to lead FuelEd's empathy curriculum within their schools or districts, fostering sustained learning and impact.

COACHING & CONSULTATION

Targeted support and customized collaboration to support practice and application of skills and knowledge gained from FuelEd's foundational learning workshops.

We work closely with our partners to identify priority needs and set aligned plans for foundation learning and continued development to move the needle on school and district goals.
